His Worship James B. Garvin, Police Magistrate, administered the oath of office to His Worship Mayor Crawford.

Mayor Crawford took the chair and called upon Very Rev. A. T. B. Browne, Dean of Ontario, to invoke the Divine blessing.

MAYOR'S INAUGURAL ADDRESS

In addressing you for the first time as Mayor of our city, I am deeply conscious of the responsibility and traditions of this office, and particularly of the distinction with which it has been filled by my immediate predecessors, Mayor C. L. Boyd, and before him Dr. H. A. Stewart, M.P.P. Each of these men brought into the conduct of the city's activities a quality of judgment and a breadth of experience which have been invaluable. In these rapidly changing times their leadership has been a constant source of inspiration to all the aldermen.

I offer my congratulations to the aldermen of last year who have been re-elected, and a welcome to the six newly-elected aldermen: Ald. Kenneth Grant Crawford, director of the Institute of Local Government, Queen's University, and John Jas. Heap, a successful business man representing Cataraqui ward; Ald. Francis Garrigan and Ald. William Norman have only been out of council one term; Ald. Frank Hoag and Ald. W. P. Peters, both ex-mayors of this city, bring with them a wide experience in civic affairs

Good progress in reconversion thus far, the transition from war to peace time activities, has proceeded reasonably well. It is true that there have been continuing shortages. Bottlenecks and strikes have impeded reconversion But when one considers the vast scale of readjustment and the abruptness and rapidity with which war activities are necessarily curtailed, the record to date is distinctly encouraging.

The Post-war Reconstruction committee was set up in 1943 and has plans for taking up the slack with civic projects, aided by federal grants and other work that has been postponed. The ratepayers at the recent election gave their approval to the money by-law to provide certain repaving. The Town Planning committee has been carrying on its work in assisting and guiding us in surveys for sub-divisions and proper planning so that as we expand we shall avoid future problems.

Kingston should move forward towards healthy peacetime economy. In saying this I am simply pointing out what must be obvious to any serious student of facts and what is unavoidable in such a drastic change in our economic activities.

But while there will be many difficulties, there is no cause for pessimism. On the contrary, it seems to me that the outlook for the coming year is reasonably good, and that the general level of expenditure and income should be such as to allow us to move towards a healthy peace-time economy.

The city's problems are not all economic, though that is the feature most often referred to. They are much wider, involving family life, education, recreation, social experiences and guidance.

This is an age which questions everything, and the questions about which the taxpayers are seeking knowledge cover every phase of civic government.

The Municipal Board of Education has been studying the overcrowded school situation and have met it in a temporary way. Fifteen makeshift school rooms are being used in assembly halls and basements to accommodate 506 more pupils than the enrolment of 1938. At present there are from 44 to 48 pupils in class rooms that should not exceed 35. The Board now realizes that two new schools should be provided for our growing population. It is undoubtedly true that the hopes of the world are centred now as never before so strongly in the youth of to-day. Young men and women need to prepare themselves for assuming the responsibilities in economic and spiritual changes which are stirring the Empire, because the strength and safety of communities and nations depend upon their virtue and intelligence.

Change in human living is natural, but it becomes beneficial only when human beings move to meet it, shifting the emphasis from what was done in the past to what can be done at the present time.

More supervised rinks and playgrounds have been provided. The Playgrounds committee, composed of interested citizens, service clubs, and aldermen, have taken a great interest and made possible the facilities of organization and supervision which is most essential.

A better set-up for juveniles through the Children's Aid Society, the Local Council of Women, Dr. McCuaig, the Kingston General Hospital, and the Chief of Police has been created.

In practically all of its activities the Social Welfare department had an unusually busy year during 1945. Included in the expansion of the work there was a definite increase in the work that pertained to the welfare officer's duties as Secretary of the Kingston Old Age Pensions and Mothers' Allowance Board.

The House of Refuge deserves a more modern building. Long overdue comforts and improvements should have serious consideration from the new board.

The Housing problem is still serious. Everything possible will be done to encourage building more homes to get families out of congested quarters. We have contacted the federal authorities to see if any surplus buildings at Barriefield could be converted into temporary living quarters.

The objectionable Rideau Street dump should be moved to another location and the present site seeded and trees planted.

Safety for children and adults will have the attention of two service clubs and a new officer in charge of traffic regulations.

The Health department is well coördinated with the two school boards and our new Medical Officer of Health, Dr. A. J. R. Boyd. Application for extension to the secondary school for health and dental services has been made. With the cooperation of every citizen we should be well protected.

The new wings at the Hotel Dieu, the Kingston General Hospital, and with the prospect of the new Tuberculosis hospital, Kingston should maintain its place as a health and teaching centre.

The leading industries have orders ahead for some time and one has started on a four-year expansion programme.

The committee on the Marsh Land Development will be continued and it might well add to its survey other available sites owned by the railways and the city, so that new industries might be offered choice of locations on water or rail lands.

I hope to have the strong Citizens' committee kept organized to continue the work they have already accomplished with the Canadian National Railway officials, regarding the matter of securing better passenger railway facilities, and particularly the building of a new station.

This committee has met with considerable success and we hope with further negotiations that the C.N.R. will consider a new post-war station here.

The renewed franchise approved by the citizens, with the Kingston City Coach Company, shall be improved, as to more frequent service and equipment, as soon as conditions warrant the securing of more new buses.

The interior rearrangement of the city hall, which has been under study for the past two years, merits further consideration. The waste space should be utilized and certain fireproofing undertaken at once. At present the administration of the Police department is most handicapped with unsuitable office quarters. Cell accommodation and proper housing of their equipment is badly needed.

This year we celebrate the hundredth anniversary of Kingston's incorporation as a city. I believe it will be the desire of this council that a suitable observance be made of this event. I am going to ask the Administration committee to give it early consideration, with a view to appointing a special committee.

In this connection the same committee might consider a mass welcome home to all our returned men and women who have served overseas in our armed forces. Many are still to be returned during the next three months. Thought should be given to a suitable recording of their names in our beautiful Memorial Hall.

The Tax Collector reports that only $30,000.00 of tax arrears is outstanding, including taxes of 1945. This is a happy position and tends to keep our tax rate on an even keel.

The local improvement work completed last year and obligations already assumed will add approximately $300,000.00 to our debenture debt and debt charges in 1946 will be higher than last year. While the books have not been closed for 1945, I understand that we will start with a surplus.

I do not propose to review all last year's activities but rather to take up and continue on where the old council left off, so that we shall have continuity of city government.

This year the Standing committees of council have been reduced in number, with several of the committees taking on added functions. This will mean fewer committee meetings and better attendance.

Our first task will be to set the tax rate for 1946. This will require a great deal of time and study by each committee to see that only essential expenditures are made. Our low tax rate for the past few years has been accomplished by retiring our debentures, taxes being paid and the increase in our assessment due to new construction.

As in the past we have discarded, learned and built afresh from outgrown machines, so in the year to come you shall see the machines of war, their purpose served, raise their challenge to us to build greater, finer tools of peaceful living.

UNFINISHED BUSINESS

Ald. Megaffin, referring to the resolution received from the County of Lennox and Addington, stated that an article had appeared recently in the Municipal World to the effect that the first highway construction would be a four-lane dual highway from Toronto to Barrie. He suggested that pressure be brought to bear to have the four-lane highway from Gananoque to Brockville paved without delay.

Mayor Crawford advised that the Hon. Mr. Doucett had assured him that this road would be paved soon.

Ald. Byron suggested that the boulevard on University Avenue be set back at least 15 feet from the intersection at Union Street. He stated that, as presently constructed, it constituted a traffic hazard and this was evident by the number of times the light standard on the boulevard at the corner had been broken.

Ald. St. Remy requested that the following matters be attended to by the committees concerned:

Residents in the vicinity of Artillery Park were complaining over the constant smoke nuisance

Frequent complaints had also reached him over the manner in which garbage and ash cans were being destroyed by rough handling.

Requests have been made by residents in his ward that the Outer Station bus return along Rideau Street.

Ald. St. Remy also inquired if any agreement has as yet been entered into with the Provincial Government for the extension of fire protection services to Provincial Government buildings on the outskirts of the city.

The Mayor advised that a suggested agreement has been received from the Province and would be considered by the Administration and Legislation committee.

Mayor Crawford announced that the Kingston City Coach Company Limited had informed him that it was the Company's intention to commence an additional bus service on Sundays.

Ald. Hoag observed that if a smoke nuisance survey was to be made it should be city-wide since residents in other parts of the city have the same annoyance.

Ald. Megaffin stated that some time ago he had referred to the long hours of employment required of the night fireman in the city buildings. He said that his information was that little improvement had been made. He believed the city should observe the Provincial law even though it meant the employment of an extra man.

Ald. Megaffin stated he had been informed a family of three had been given temporary shelter at the House of Refuge contrary to the regulations governing such homes. He believed that this matter should be looked into without delay.

Ald. Megaffin also suggested that the City of Kingston should show some leadership in the present campaign for funds for the International Hockey Hall of Fame, and that provision should be made in the Budget for a substantial grant

Ald. Megaffin queried the precedure followed by city council in the passing of by-laws. He quoted from the Municipal World to the effect that there was no prescribed manner for the passing of by-laws and suggested the possibility of reducing the number of readings to two.

Ald. Curtis, in reply, stated that the requirement that a by-law be given three readings and with one reading only on the same day, except with the permission of two-thirds of the members present, was meant to be a protection for the aldermen. The practice has been that a by-law, unless it be of little consequence, receives no more than two readings in the one evening and is not finally passed until the aldermen have had the opportunity to study the purpose and the effect of the proposed by-law. He believed that very careful consideration should be given to any suggested change in this procedure.

Ald. McCullough complimented the Board of Works on their decision to pick up Christmas trees on the regular garbage day.

Ald. Peters pointed out that the ash collectors frequently did not exercise care in dumping the ash cans and as a result spilled ashes on the lawns and roadway.

Ald. Compton, in reply, reminded council that ash collection was a difficult job and the wages paid by the city were not high. He believed, however, that the men were doing good work and, while ashes are sometimes spilled, generally the work was performed satisfactorily and without due cause for complaint

Allan, (3) that a By-law to authorize the construction of private water and sewer services on the east and west sides of College Street from Earl Street to Johnson Street, under the provisions of the Local Improvement Act, be given its first reading—Carried on the following division: For (20), Against (1).

The By-law was then read a first time.

Moved by Ald. Compton, seconded by Ald. Allan, (4) that Rule 32 be suspended for the purpose of giving the various by-laws before city council their second reading and that council resolve itself into a committee of the whole to give the by-laws their second reading—Carried on the following division: For (20), Against (0).

Ald. Byron took the chair.

UNFINISHED BUSINESS

Ald. Casterton advised council that a member of the Kingston Fire Department who has resided in Kingston for forty years, recently built a home approximately a half-mile outside of the city, but since the Fire Department By-law does not permit residency outside of the city the man must either leave his job or move back into the city. He expressed the opinion that a very narrow line was being drawn. On occasion other by-laws are stretched and he believed that something should be done with this case.

Ald. Dalton pointed out that this matter had been carefully considered by last year's committee and had been brought also before the present committee. He stated that the committee believed it unwise to amend the by-law in this respect.

Ald. Garrigan expressed the hope that a sympathetic hearing would be given the man in question.

Ald. Megaffin, referring to a remark that the Fire Department By-law restricted the number attending fires outside the city, observed that the By-law should be amended in view of the agreements entered into by the Corporation for fire protection services to other adjoining municipalities.

Ald. VanLuven believed that, if the house is being erected in the face of the by-law restriction, there did not seem to be any reason why the by-law should be amended to permit the infraction.

Ald. Hoag suggested that a complete report be submitted by the Fire Chief on the matter.

Ald. Casterton, referring to the clause in the report of the Board of Works requesting the Police Department to enforce the Snow Removal By-law, pointed out that in many instances walks have been cleaned only to have the snow pushed back on the walks by the snow plough.

Ald. Compton admitted the fact that the action of the snow plough pushed snow back on the walks but pointed out that it could not be avoided on the narrow streets.

Ald. Tugwood inquired if the Administration and Legislation committee had anything to report on his suggestion that workingman's tickets be instituted on the buses.

Ald. Curtis, in reply advised that officials of the Coach Company will meet with the committee soon and the matter will again be taken up at that time.

UNFINISHED BUSINESS

Ald. Chown suggested that the clause in the report of the Board of Works concerning the parking of taxis on the city streets might require an amendment to the by-law or the spaces would have to be marked for taxis.

Ald. Byron remarked that if the spaces were set aside for taxis only it would appear to be discriminatory legislation in favour of taxi companies.

Ald. Curtis inquired if any steps had been taken to ascertain what disposition is to be made by the Government of Norman Rogers Aerodrome. He pointed out that originally this aerodrome was to be part of a feeder system for the Trans-Canada Airline, and that, at that time, a complete survey was made by engineers of the Department of Transport and it was their opinion that the present location was the only suitable location in this vicinity. He believed the city should take immediate action to ensure that this field is continued in use.

Mayor Crawford advised that the city, some time ago, had applied to the Government on behalf of the Kingston Flying Club and that a reply had been received to the effect that the matter would be considered.

Ald. Curtis suggested that the city should ascertain if it is the intention of the Department of Transport to keep title to this property.

Ald. Chown referred to a news item in the Whig-Standard to the effect that the Colonial Airways was now stopping at Watertown. He suggested that inquiry should be made concerning the possibility of Kingston being added to the circuit.

Ald. Compton referred to a recent editorial in the Kingston Whig-Standard concerning the collection of garbage from the back doors of residences. He stated he had received information from other municipalities and had found that they were not all favourable to this extended service. He observed that there are many important municipal services needed, instancing, as an example, the proposed sewage disposal, resurfacing, and repairs to concrete walks, and there would necessarily be an increase in the tax rate. He believed that these services should be undertaken before extending the scope of our garbage collection.

Mayor Crawford referred to a letter in the Kingston Whig-Standard suggesting the reorganization of the Humane Society. The Mayor pointed out that excellent service was now being rendered by the Police Department.

Ald. Tugwood inquired if the Administration and Legislation committee had given any consideration to the institution of workingmen's bus tickets. He read a letter from the presi dent of a union in Kingston in which it was stated that a company official had advised the question was strictly a matter of City Council.

Ald. Curtis advised that the committee was waiting to meet an officer of the company to discuss the question. He pointed out that, while there is permissive legislation in the by-law, it is not mandatory upon the request of the city.

Ald. Megaffin stated that at the last meeting of the committee the chairman had advised he had been in touch with the company. A traffic expert was at that time making a survey and it was understood that a report would be submitted at a later date

Ald. Tugwood admitted there had been considerable improvement recently in the service.

Mayor Crawford announced that Sir Harold Alexander, Governor-General Designate, had accepted by cable an invitation extended by the city to visit Kingston, August 6th, and to take part in the Centennial celebration.

Ald. Heap complained about flooding conditions on Montreal Street and requested that the chairman of the Board of Works take this matter up at the next meeting.

UNFINISHED BUSINESS

Ald. Byron stated that the Agricultural Fair Board required the use of the cattle barns at the Fair Grounds during their Annual Fair, and generally considerable inconvenience is occasioned by the use of this building for the storing of Board of Works' equipment. He inquired if arrangements could not be made to make this building available to the Board.

Ald. Tugwood referred to the resolution he had presented to City Council last year asking that the City undertake the responsibility for the removal of snow from the sidewalks. He stated that he had withdrawn his resolution on the understanding that the Board of Works would give it consideration when their budget was being prepared.

Ald. Compton agreed to have the matter discussed at a meeting of the Board of Works.

Ald. Hoag believed the cost of such service would be particularly heavy, and suggested that an advertisement be inserted in the press advising all citizens that walks must be cleaned.

Ald. Dalton informed Council that he had been notified by the Manager of the Kingston City Coach Company Limited that the Company could not consider workingmen's fares at this time.

Ald. Megaffin referred to the proposed extension of the Library building, and inquired if consideration had been given to the establishment of branch libraries.

Ald. Curtis, in reply, advised that this matter had been considered, but it was found that it would mean a duplication of costs.

BUDGET FOR THE YEAR 1946

March 9th, 1946.

To the Mayor and Members of City Council:

Gentlemen,—The Finance Committee begs leave to present for the consideration of City Council the Budget for the year 1946.

The estimates of the various committees, as submitted to the Finance Committee, provided for substantial increases in appropriations. A large proportion of these increases has been due to the increased scale of salaries and wages and to the rising cost of social services which are, for the most part, beyond the control of Council. Provision has, however, also been made for the improvement and extension of municipal services. An increase in the municipal tax rate was, of course, to be expected. The Committee, however, has striven to avoid too great an increase at this time, believing that during the next few years Kingston will be faced with substantially increased municipal services and capital commitments. It is recommended that the general tax rate for 1946 be set at 34.70 mills and the Garbage and Ash Collection Rate at 1.65 mills. As indicated in the accompanying table No. 1, this proposed general tax rate provides for an increase of 1.41 mills for City Council purposes. The total increase in Committee appropriations, exclusive of the Garbage Department, amount to $60,193.00. Added revenue from increased assessment, the surplus in the current fund for 1945, and from other sources, reduces the amount to be raised by increased taxation to $30,722.00, or an increase of 1.41 mills.

In keeping with previous practices, the Committee desires to comment briefly upon unusual items in the Committee appropriations.

Finance—

The further provision of $3,966.35 for Reserve-Wood Fuel is the final amount necessary to meet the deficit of $10,966.35 incurred in the wood-fuel operations.

Sufficient provision has been made in the Finance-Sundry appropriation to cover anticipated demands during the year.

Fire Department—

The salary appropriation gives effect to the increased salary scale of the department which became effective November 1st, 1945.

Social Welfare—

Anticipated increased cost of Direct Relief and Maintenance of Neglected Children accounts for the substantial increase in estimates of this committee.

The cost of maintenance of wards of the Children's Aid Society has grown at a rate that merits the serious consideration of municipal councils. Included in this appropriation is an amount of $2,000.00 for maintenance charges of temporary wards for whom the City was not previously requested to assume financial responsibility.

The appropriation of $1,500.00 for a family worker, in co-operation with the Children's Aid Society, is at the rate of $2,000.00 per annum, and was recommended by the 1945 Council.

Police Commission—

In 1945 the Commission adopted a new salary schedule for the department but, to avoid a sharp increase in the estimates, half of the proposed increase was granted last year with the balance to become effective April 1st, 1946.

Provision in the budget of the Department for the appointment of two additional Constables has been transferred to Finance-Sundries. The availability of this appropriation will be a matter for the consideration of Council.

Respectfully submitted,

Members of the Finance Committee.

UNFINISHED BUSINESS

Ald. Casterton stated that no street cleaning had been carried on as yet in Cataraqui and Frontenac wards and asked that this condition be remedied without delay.

Ald. Compton advised council that the supply of building material in Kingston was even more serious. He stated that there were no sites available in the city suitable for large housing schemes and as a consequence Kingston was not sharing in the priority for building materials. He believed that the council should urge the Federal Government to make more materials available for the private builder.

Ald. Hoag believed that an effort should be made to keep the city in a cleaner condition than was previously the case.

Ald. St. Remy, referring to the housing shortage, suggested that the military shacks at Barriefield and in the city be used for emergency shelters.

Ald. Megaffin inquired if any approach had been made to Housing Enterprise.

Mayor Crawford advised that a representative had been here and he believed that the company was prepared to build if a large tract of land could be made available in the city.

Ald. Casterton suggested that the Military Hospital on King Street might be used for housing families.

Ald. Dalton expressed the opinion if Housing Enterprise can obtain materials there was no reason why a similar privilege could not be extended to the local contractors who were prepared to build throughout the city.

Ald. McCullough stated that the present collection of garbage on Princess Street in the early afternoon was inconvenient and inquired if it could not be changed to ten o'clock in the morning.

Ald. Megaffin expressed the opinion that the chain store organizations lacked an interest in the community and he believed that the Business tax of such stores should be increased if the legislation permitted.

UNFINISHED BUSINESS

Ald. Casterton advised the members that the clock in the council chamber had been removed to be repaired.

Ald. Compton referred to the recent order-in-council P.C. 1184. He stated that the Board of Works, while anxious to comply with the wishes of the government, were of the opinion that it would be very difficult to enforce and he desired to have the comments of council. He quoted the resolution of the Board of Works which authorized the city engineer to prepare a schedule of essential and non-essential construction, which would be approved by the Board and which would form the basis for the issuance of building permits.

Ald. Curtis believed that the proposal was too vague at this time for any decision of council. He suggested that permits be granted by the engineer for residential construction and that other permits be subject to the consideration of the Board of Works or council.

Ald. Peters stated he had been informed the Oddfellows had been held up in their building programme and he expressed the opinion the circumstances were such as to warrant the issuance of a building permit.

Ald. St. Remy suggested that a letter be sent to Mr. C. C. Folger expressing the wishes of council for a speedy recovery. He also asked that a letter of condolence be sent to the family of the late Dr. C. C. Nash.

Mayor Crawford advised council that the Junior Chamber of Commerce had prepared a very excellent report on a survey of street signs and he extended personal thanks to the members in attendance at the council meeting.

UNFINISHED BUSINESS

Ald. Byron inquired if any progress was being made in the acquisition of the "Green" property for the construction of the houses by Housing Enterprises Limited.

Acting Mayor Dalton replied that there was nothing to report at this time.

Ald. Casterton said that he was pleased to know that the dump was being levelled off by a bulldozer and that while conditions at the dump had been improved considerably during the last two years there was still room for a great deal of improvement.

Ald. Heap suggested that the water hole at the dump should be filled immediately and Ald. Norman made the suggestion that the installation of a phone at the dump to enable the caretaker to contact the police would greatly assist in curbing indiscriminate dumping there.

Ald. Hoag and Ald. Megaffin both said that they were in favour of dressing up the city dump.

Ald. de St. Remy reminded the members of council that to fill in the dump properly would be an undertaking requiring the expenditure of several thousand dollars.

Ald. Compton informed the members that his committee was constantly on the alert for methods of improving the situation at the city dump.

Ald. Norman stated that the signs at Montreal Street and on Division Street were in need of attention.

Ald. Compton said that the recent statement in the press to the effect that there was lack of co-operaion between the Public Utilities and the Board of Works was without foundation. On the contrary, his committee was always most anxious to co-operate with the Public Utilities and had done so in the past as fully as possible.

Ald. de St. Remy inquired whether any progress was being made with the early closing By-law. Acting-Mayor Dalton advised that the Administration and Legislation committee was still receiving expressions of opinion concerning the By-law but that the By-law would soon be brought to Council.

BY-LAWS

Moved by Ald. Norman, seconded by Ald. de St. Remy, (6) that a By-law to authorize construction of a pavement on Russell Street, from Montreal Street to Division Street, as a local improvement, under the provisions of the Local Improvement Act, be given its first reading.—Carried on the following division: For (21), Against (0).

Moved by Ald. Norman, seconded by Ald. de St. Remy, (8) that Rule 32 be suspended for the purpose of giving the various by-laws before city council their second reading and that council resolve itself into a committee of the whole to give the by-laws their second reading.—Carried on the following division: For (21), Against (0).

Ald. Peters took the chair.

Ald. Peters reported that the following By-laws were given their second reading in the committee of the whole:

(1) A By-law to authorize construction of a pavement on Russell Street, from Montreal Street to Division Street, as a local improvement, under the provisions of the Local Improvement Act.

(2) A By-law to authorize the resurfacing of Brock Street from Bagot Street to Montreal Street and Princess Street from Barrie Street to Division Street, as a local improvement, under the provisions of Section 8 of the Local Improvement Act.

Moved by Ald. Compton, seconded by Ald. Garrigan, (9) that By-law No. 450 be given its third reading, signed and sealed by the Mayor as follows:

UNFINISHED BUSINESS

Ald. Byron inquired as to the progress made in the arbitration on the purchase of the "Green" property.

Ald. Curtis explained the requirements under the Act pointing out that the consent of the Township of Kingston was necessary before expropriation proceedings could be instituted. He expressed disappointment at the delay which has been occasioned by the Township but suggested he did not believe council would permit a delay in the erection of the houses because of the difficulty of expropriating the land.

Ald. Dalton advised council that the Township Council had already passed a resolution granting consent but it appeared that they were withholding the formal resolution to bargain with the city in the matter of the Dovercourt sewer.

City of Kingston be amended by adding to the area to be annexed Johnson Street and the Palace Road.

UNFINISHED BUSINESS

Ald. Dalton extended the thanks of the Red Cross Society for the use of Ontario Hall and informed council that the Society had now relinquished their use of it.

Ald. Tugwood inquired if war veterans had been given preference when consideration was given to the appointment of a new Deputy Police Chief. Mayor Crawford replied that forty applications had been received for this position and that in considering the applications preference had been given to war veterans.

Ald. de St. Remy reported that War Assets Corporation was arranging for the removal of some of the huts at Barriefield for disposal to the Province of Ontario. He suggested that this material might well be made available to veterans for building purposes. Mayor Crawford, in reply, stated that he would approach the War Assets Corporation and endeavour to arrange to have this material made available to local veterans and residents.

Ald. Casterton remarked that an investigation subsequent to the rejection by council of the location of the site of the abbatoir had shown that its location did not comply with the requirements of the Public Health Act, and suggested that a more thorough investigation should be made of important matters before a report was brought to council.

Ald. Megaffin inquired on the progress of the plan for the improvements to the municipal offices. In reply, Mayor

Crawford said that the plans were still being held in the architect's office.

UNFINISHED BUSINESS

Ald. Charlton extended congratulations to Ald. Robertson on his recent marriage.

Ald. Compton referred to an advertisement which appeared in the local paper announcing intention to apply to the Liquor Authority Control Board for authority to sell beer and wine at two hotels to be established on Princess St. near the traffic circle. Ald. Compton stated that he was absolutely opposed to such application and he asked that council consider a resolution recommending to the Board that the authority be not granted. Ald. Charlton and Ald. Garrigan expressed the opinion that council should not, at this time, express an opinion.

Ald. Charlton inquired if the Board of Works had planted any trees in the new section. He was advised by the chairman that nothing had been done as yet.

Ald. de St. Remy stated that complaints had reached him from residents on Montreal Street, near the outer station, against the excessive dust created by the paving plant of the Warren Bituminous Paving Company Limited.

Ald. Norman inquired if the city-owned lots on Joseph Street had been sold.

Ald. Tugwood, in reply, advised that 124 applications had been received and that while a selection had been made, investigation was now being made to determine whether the successful applicants were prepared to agree to the city's terms.

UNFINISHED BUSINESS

Ald. McCullough inquired if there was to be any control on parking on Queen Street following the installation of parking meters.

Ald. VanLuven advised council that the sub-committee of the Board of Works had already prepared proposed parking regulations for the streets adjacent to the parking meter area and these recommendations would be submitted to the Board of Works at the next meeting.

Ald. Casterton suggested that trucks be used to remove the leaves from the city streets. He believed that the present system of using horse-drawn vehicles was too slow.

Ald. Hoag stated that the boulevard on Princess Street near the Anderson grocery store needed filling in. The Mayor advised that this matter had already been drawn to the attention of the City Engineer.

Ald. Norman requested the Administration and Legislation committee to take up with the Kingston City Coach Company Limited the question of routing the Princess north bus north on Cowdy Street to Russell Street and thence to Division Street. He believed that this short extension would be greatly appreciated by the residents in that neighbourhood.

UNFINISHED BUSINESS

Ald. Tugwood referred to a resolution he had presented to city council in 1945 and again in 1946 requesting the Board of Works to give consideration to the removal of snow from the sidewalks throughout the city. In view of the recent editorial he asked that this matter be taken up by the Board of Works and that a report be submitted at the next meeting of council.

Ald. de St. Remy observed that the DVA Hospital on Princess Street presented a definite fire hazard. He stated that this building was meant to be a temporary building and it was not suitable for hospital purposes. The recent fire in Peterborough in a similar building showed the gravity of the situation and he believed the city should go on record protesting against its continued use.

Ald. Byron admitted that the building was not fire resistant but he said that every precaution had been taken to minimize the possibility of fire.

Ald. Berry believed that there was no cause for alarm, particularly when there could be no other arrangement at this time.

Ald. Charlton requested that council give consideration to the construction of an apartment over the tool shed which is presently being erected in Macdonald Park. He stated that, in his opinion, this would be an excellent investment and would give added protection, but council could not delay since the contractor is ready to construct the roof.

Ald. Casterton stated that he felt it was a good suggestion but it was being made a little late.

Ald. Megaffin inquired if the footings would be sufficient to carry a second storey and was assured by the City Engineer that the type of construction employed would permit the extension.

Ald. Chown and Curtis both suggested that the matter be thoroughly investigated and that the Parks and Property committee meet to consider it.

It was agreed that the Parks and Property committee would meet Thursday at 5.00 o'clock for this purpose.

Ald. Curtis advised council that he had been informed by the bus company that children's fares would be accepted from school children residing in the Elevator area and that the company was also arranging to place route designation numbers on the rear of the busses.

UNFINISHED BUSINESS

Ald. Casterton criticized the manner in which the snow was being removed from the city streets, particularly on the side streets and crossings. He stated that some streets had been missed and many citizens were suffering severe inconvenience. He asked that immediate steps be taken to give the citizens more efficient service in this respect.

Ald. de St. Remy remarked that the city bus lines had been kept open and he believed that the snow removal had been fairly well done.

Ald. Compton said that the light snow was difficult to handle and the cross walks could not be looked after until all the roads were thoroughly ploughed out.

Ald. VanLuven stated that an effort had been made to have the ploughs precede the city buses during the heavy part of the storm and in this way the buses were able to continue operation.

Ald. Casterton replied that the bus routes were widely separated in the north end of the city and for that reason consideration should also be given to other city streets.

Ald. Curtis said that he appreciated the desire to maintain the bus routes but he did not feel that this should be done at the expense of a large number of ratepayers. He added that many streets were not ploughed until Sunday afternoon and he had received many complaints from citizens.

Ald. Chown commended the Police Department on the steps that had been taken to regulate pedestrian traffic on Princess Street.

Ald. Compton advised council that a comprehensive report was being prepared on the request that the city undertake the removal of snow from the city sidewalks.

PRESENTATION TO THE MAYOR

The following address was given by Ald. Megaffin on the presentation to His Worship Mayor Crawford of a marine scene:

During the past year, your first term as Chief Magistrate of our fair city, you have fulfilled your office with dignity and sound judgment. I imagine few citizens realize the great amount of time you have devoted to city business but your colleagues in city council and the various city officials appreciate and know too well that you have been kept busy day and night, attending innumerable meetings as well as representing the city in neighboring municipalities.

To mention a few items, we particularly commend you for the very fine job you accomplished, along with Judge Reynolds and Magistrate Garvin, in reorganizing the City Police Department. Also, for the planning and organizing necessary to make the city's Centennial celebration the very successful event it was and at which we were honoured by having His Excellency the Governor-General of Canada, Viscount Alexander, in attendance. I repeat, at these and on many other occasions you represented the city of Kingston with dignity and wisdom.

I know I speak for all assembled here in wishing you, Mayor J. Stuart Crawford, many years of good health and happiness and that you will be our Mayor for many years to come.

I have the honour to present to you, Sir, on behalf of all the Aldermen this presentation, which Ald. Edward Charlton, knowing your interest in marine scenes, kindly procured, and which I would ask you to accept as a token of our high regard and sincere esteem.

His Worship Mayor Crawford in acknowledging the gift expressed his appreciation to the members of council for their co-operation during the past year.
